PROFILE

UX/UI Designer, Product Designer, and Graphic Designer with expertise in creating user-focused digital experiences. Skilled in Adobe Creative Suite, Figma, and CAD tools like Rhino 7 and KeyShot. Experienced in design validation, typography, and human-computer interaction. Successfully contributed to projects such as Great Dane SCADpro, SCAD UXDG 450 Senior Capstone, and other innovative designs, delivering impactful solutions.

EXPERIENCE

Great Dane | SCAD Pro & Engineering Internship
March 25, 2024 - September 9, 2024

Served as one of two project managers on the Great Dane SCADpro team, leading efforts to refresh the design of the Freedom XP flatbed trailer. Collaborated with a multidisciplinary team to conduct user research, develop wireframes, and create prototypes using SolidWorks, CATIA, Figma, and sketching. Managed timelines, coordinated team tasks, and ensured alignment with project goals. This experience transitioned into a summer internship, where I contributed to engineering projects by refining designs, creating prototypes, and presenting user-centered solutions.

SCAD UXDG 450 & 490 | UX/UI Project Manager
September, 2024 - March 12, 2025

As the UX/UI Project Manager for SCAD's UXDG 450 & 490 courses, I lead a team in developing innovative digital solutions. I oversee project timelines, coordinate tasks, and ensure smooth communication between team members. My responsibilities include conducting user research, managing the design and testing phases, and overseeing the physical device, packaging, and social media aspects of the project to ensure a cohesive and user-friendly experience across all touchpoints.

Crease Pro AI | UX/UI Intern
September, 2023 - January 1, 2025

Working on four major projects for Crease Pro AI, a company offering AI-driven solutions for the fitness industry. Designed a modern and professional logo, created compelling product stories, and developed user-friendly interfaces for ease of use and intuitive interaction.

MEB Group | Freelance Graphic Designer
November 20, 2023 - On-going

Designing branded templates for PowerPoint presentations, portfolios, and proposals, including custom layouts for covers, headers, bullets, and tabs. Collaborating with the team through weekly progress meetings to ensure timely, high-quality deliverables aligned with project milestones.
